### 4. Cllrs Grant/Middlemiss Report.

Cllr Grant gave a brief update to members.

The consultation about Local Government Review is coming to an end on 19<sup>th</sup> April. Locally we now need to await the outcome from Government for the way forward. The number of local representatives will be decided by the boundary review which will take place in tandem. Covid numbers continue to reduce and are lately in the region of >20 (4 per 100k today) in Richmondshire. The vaccination program is moving at pace and has been very successful. There is to be a new NYCC inhouse highways company which will hopefully address many of the criticisms that have been made about the previous contract. I am particularly interested in the National bus strategy which is being formed and how that might impact on areas such as ours. The Climate groups at district have made progress and are now embedded and undertaking various surveys and programs for improvement. The next Corporate Board at RDC will be addressing many community issues as promised by the administration including further Area Partnership funding. continued apprentice grant scheme funding, a new business portal is to be produced - it will show developers what is available, where and how RDC can assist. There is a longawaited street lighting investment fund. The creation of a play park improvement fund and a large investment into the district swimming pool are also on the agenda. Cllr Middlemiss gave a brief update OVERVIEW & SCRUTINY JOINT COMMITTEE RDC EXTERNAL & INTERNAL We held our first RDC joint Committee (OSE)&(OSI) on 25<sup>th</sup> March 2021 at 4pm to discuss the Economic Recovery Plan Frame work which I chaired the document sets out where RDC are focussing on efforts to support the local economy, this does not replace the Councils existing action plan, it is a separate plan developed for the purpose of COVID-19 response It is a live document that will develop and change over time & will be updated regularly to review progress & and address emerging challenges. 29% reduction on the same time period last year. Inspector Gee highlighted the impact that Stayat-Home messaging was having on crime, by reducing the amount of road travel and decreasing the opportunities for burglars to strike unaccompanied homes 355 instances of domestic abuse were reported which was 15% reduction. there had been 755 reports of ASB a significant increase which was partly due to COVID-19 Fixed Related Penalty Notices (FNPs)

The Committee enquired about impact of fraud and cybercrime particularly on the elderly and vulnerable people Inspector Gee noted that there had been an increase particularly with scams relating to PDP and Royal Mail deliveries and that the Police has been working to educate the community where possible and he agreed to feed this back to the Committees concerns into Financial Fraud.

#### 8. Correspondence Received

Cllr Paley notified us of a message received regarding trees behind the houses on Mallard Road being overgrown. Apparently, this issue has been raised before and was found not to be a Parish Council responsibility. It was suggested that they contact Gary Hudson at RDC, Cllr Paley to reply to the message with the updated information. Cllr Smith had received correspondence about the Social Club requesting to be included as a Parish asset. This was generally thought an excellent idea and would allow the social club to apply for grants to maintain it. Cllr Smith has completed the forms which needs supporting info from the club to then send to RDC.

Cllr Smith had received correspondence about cars parking on the grass at Scotton Gardens behind the post box. Cllr Smith had responded asking them to report to the police or to inform us with a photograph of the number plate so can be passed on to the PCSO.
